

Patrick AirBNB owner

NOTE: No written response, he called me to talk

Michael

Hey man it's the neighbor Michael next to your Airbnb on Whitefield. You may remember me from the grinder pump situation. So I'm just curious if you may have a way to keep watch on your property like a doorbell camera? You'd have to see it to believe how many cars are there

Thursday, May 23 2024, 8:37 PM.

Michael

Hey just a heads up the ac unit at your place got pretty loud today I'm not sure if it's always been like that

Sunday, June 2 2024, 5:07 PM.

Michael

If you've got a Facebook or something I can send you a video it's probably nothing big right now might not even be a problem just a heads up

Sunday, June 2 2024, 5:08 PM.

Michael

Hey yeah your ac unit is probably done for or on it's way out. Since I've been outside it keeps turning on and off ever 30 seconds

Sunday, June 2 2024, 7:52 PM.

Patrick AirBNB owner

Thank you for letting me know, I'll get an ac company to stop by soon

Sunday, June 2 2024, 7:56 PM.

Patrick AirBNB owner

It's only 3 years old so I'm hoping it can be repaired, temperature in the house is holding consistent

Sunday, June 2 2024, 7:57 PM.

Michael

<https://youtu.be/9C0YHvaZstA?si=-0jYH4s5sSxtb53D> that's what it's doing. It might just be low on refrigerant

Sunday, June 2 2024, 7:57 PM.

Michael

Hope the video helps! Just lmk if you need anything

Sunday, June 2 2024, 7:58 PM.

Michael

Hey man I may have gotten a new number since we last spoke, but we live right next to the Airbnb. We've been experiencing some issues with the guests and we're evaluating some options.

Sunday, September 14 2025, 8:48 AM.

Michael

So we don't want it to go away but when the last owner had contractors install the fence the last post is about a foot over the property line

Sunday, September 14 2025, 8:49 AM.

Michael

We're thinking about putting up our own fence along that side so we might want to do something with the last post

Sunday, September 14 2025, 8:49 AM.

Michael

But the other thing is before we do we were going to use it in it's existing spot. I've been meaning to run it by you that I'm going to put up a break beam sensor and maybe a cable mount

Sunday, September 14 2025, 8:50 AM.

Michael

I was probably going to put a camera on there too. The guests discharged fire arms at about 1am last night and we didn't have anything good to give to the police

Sunday, September 14 2025, 8:56 AM.

Patrick AirBNB owner

I am so sorry about this, I'm glad everyone is ok

Sunday, September 14 2025, 9:34 AM.

Patrick AirBNB owner

I'd be happy to work with you on this

Sunday, September 14 2025, 9:34 AM.

Patrick AirBNB owner

Let me know if there is any damage to the front lawn or any part of your house

Sunday, September 14 2025, 9:35 AM.

Michael

No worries man, and we're all good, last time they got stuck, this time they didn't and thanks

Sunday, September 14 2025, 4:20 PM.

Michael

Man idk if you're kept in the loop but the guests shot the neighbors car and house up. Crazy. IDK if you can put a review of guests in the app but I'd definitely blacklist those

Monday, September 15 2025, 12:02 PM.

Patrick AirBNB owner

Yea I am, horrible situation and so upset they were negatively affected, they are very nice neighbors and didn't deserve that

Monday, September 15 2025, 12:02 PM.

Patrick AirBNB owner

I will get everything handled through insurance and Airbnb

Monday, September 15 2025, 12:03 PM.

Michael

Also so my mom has rentals, and one funny thing is that the city of Savannah assigns fines against the house, not the tenants. I'd make sure you have it in the terms that if the fines are assigned from their actions, they're liable for them. I'm not sure how things work with Airbnb but for rentals my mom would take it out of the security deposit

Monday, September 15 2025, 12:04 PM.

Michael

One more thing, if you want to put cameras up at your place I got the cabling and termination tools for network hardware

Monday, September 15 2025, 12:06 PM.

Michael

Found the bullet holes in our house today

Thursday, September 18 2025, 10:52 AM.

Patrick AirBNB owner

Do you have any time to meet today? I'm in the area and would be happy to talk this through in person

Thursday, September 18 2025, 10:54 AM.

Michael

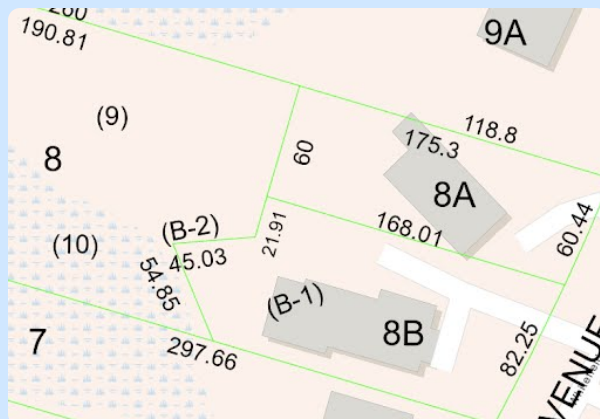

We're having the police come over to look for the bullet and do a report in a minute. You'll have to get in touch with my mom, I'm getting ready to head in to school

Thursday, September 18 2025, 10:59 AM.

Patrick AirBNB owner

Liked "We're having the police come over to look for the bullet and do a report in a minute. You'll have to get in touch with my mom, I'm getting ready to head in to school"

Thursday, September 18 2025, 11:00 AM.

Michael

Thursday, September 18 2025, 12:40 PM.

Michael

hey I just wanted to give you a heads up, there's an easement to access the plot of land behind the airbnb

Thursday, September 18 2025, 12:40 PM.

Michael

originally they all had to park in front of the house, which was the norm when it was just two people, or atleast a family with 2 cars living there

Thursday, September 18 2025, 12:41 PM.

Michael

Parcel ID (PIN): 10496 02008

Thursday, September 18 2025, 12:42 PM.

Michael

so you may want to check the deed if there's any abnormal restrictions about how it was set up but it seems pretty clear on my end.

Thursday, September 18 2025, 12:44 PM.

Michael

and I'm not sure how it would work out with blocking access and getting them towed or anything, probably best not to have to deal with it

Thursday, September 18 2025, 12:46 PM.

Patrick AirBNB owner

I installed cameras today that will alert me if a car ever parks on the lawn

Thursday, September 18 2025, 12:47 PM.

Michael

right well I'm talking about the driveway, the driveway is supposed to remain free and clear for the easement to the plot behind the airbnb, sorry if it sounds confusing

Thursday, September 18 2025, 12:47 PM.

Patrick AirBNB owner

I don't quite understand this so happy to meet in person if you're available today or tomorrow ?

Thursday, September 18 2025, 12:49 PM.

Michael

Yeah we can, but if you have a copy of your deed you can take a look at it for any noted easements to access the plot behind yours

Thursday, September 18 2025, 12:49 PM.

Patrick AirBNB owner

So are you saying that I can't park in my own driveway?

Thursday, September 18 2025, 12:50 PM.

Michael

You'd have to look at your deed

Thursday, September 18 2025, 12:50 PM.

Michael

oftentimes they aren't entered properly

Thursday, September 18 2025, 12:50 PM.

Michael

but yes if you look at that picture, historically the parking spots were in front of the house, and the driveway going all the way back was put in originally by the people who owned the plot of land behind the airbnb

Thursday, September 18 2025, 12:51 PM.

Michael

and ofcourse a legally stipulated easement can't be blocked <https://www.gamain.com/can-a-property-owner-block-an-easement/>

Thursday, September 18 2025, 12:54 PM.

Michael

It has gotten confusing over the years I'm sure, because the last owners had a driveway put in, but the original gravel driveway going all the way back beyond the point that they needed to park was put in by the people who owned the plot of land at the time

Thursday, September 18 2025, 12:57 PM.

Michael

however, when we first moved here, it was clear to the owners of that house that they were to leave the driveway clear for access to the plot of land behind it.

Thursday, September 18 2025, 1:00 PM.

Michael

it was never a problem for them to park in those parking spots pictured in front of the house when it was only 2 cars there

Thursday, September 18 2025, 1:01 PM.

Michael

we're looking into putting up those no parking tow away signs at the property line back there, but it might be wise to have it entered on the airbnb listing where they can park.

Thursday, September 18 2025, 1:11 PM.

Michael

ofcourse it all depends on what your deed says, which I haven't seen

Thursday, September 18 2025, 1:12 PM.

Michael

but if there's ever any further issues, it'll be worth the cost for me to find out what yours says about the easement

Thursday, September 18 2025, 1:13 PM.

Michael

We absolutely cannot have any further issues. IDK how often my mom may have messaged you, but we've been extremely patient with the airbnb guests

Thursday, September 18 2025, 1:14 PM.

Michael

and so we're not going to hold off shooting a text message your way if they're noisy again, or if there's parking issues, and when and if appropriate, have them towed

Thursday, September 18 2025, 1:16 PM.

Michael

if you want to avoid texts or messages this company has a volume monitoring device that integrates with the airbnb app and would automatically alert you and them <https://www.minut.com/airbnb>

Thursday, September 18 2025, 1:28 PM.

Michael

If you visit here, you'll see the ordinances for noise levels:
<https://www.chathamcountygga.gov/OurCounty/CodeBook>

Thursday, September 18 2025, 1:33 PM.

Patrick AirBNB owner

I totally understand your frustration and changes will be made I can assure you that

Thursday, September 18 2025, 1:34 PM.

Patrick AirBNB owner

I've already purchased the minut devices and will be installing them tomorrow

Thursday, September 18 2025, 1:34 PM.

Patrick AirBNB owner

You've been a great neighbor and I have no intention to disturb the peace of your neighborhood

Thursday, September 18 2025, 1:35 PM.

Michael

Ok cool. Yeah in accordance with the requirements to enforce the noise ordinance I've bought an NIST certified and calibrated meter because sometimes the police don't have one. The noise limit past 10pm is 55db at the property line. Not sure what that would work out to be inside the Airbnb but if I hear anything loud I'll measure it at the property line and take a video to send and maybe that will help decide what to set the threshold at inside the place

Thursday, September 18 2025, 1:38 PM.

Patrick AirBNB owner

I really appreciate that, I can toggle the threshold for alerts from my devices so happy to keep open communication about this

Thursday, September 18 2025, 2:02 PM.

Michael

would you happen to know the guests' info as far as:
"Type of Airbnb reservation" and "Airbnb confirmation code" ?

I'm trying to get the claim process started to get someone over here on a ladder to give a quote for anything that needs repairs. We can't really see the extent of the damage ourselves on the outside since it's really high up there

Thursday, September 18 2025, 3:53 PM.

Patrick AirBNB owner

Yes happy to send that over

Thursday, September 18 2025, 3:54 PM.

Patrick AirBNB owner

Hey Michael, hope you've been well. Could you please share your name and email as well as your mothers ? I'm sending this info to the insurance agent to forward details. Let me know if you have any questions.

Tuesday, September 23 2025, 3:25 PM.

Patrick AirBNB owner

Hey Michael, i wanted to pass this message along to you and your family. I am devastated by the situation that occurred a few weeks ago and I am praying for you and your family and everyone in the neighborhood that was affected. Vrbo and Airbnb is aware of the incident and has taken action against my account. There will be a decrease in bookings the next couple months but they won't be canceling any existing reservations. The other day was a scary situation and I feel so bad for any negative impact my business has had on the community. I don't blame anyone for hating me. I respect anyone's decision to report these incidents to Airbnb and protect their community. I can't change what happened, and I can't expect anyone to trust me. All I am focused on doing is making the necessary changes to make sure

that not even a single party happens at the property again. It will be up to you to assess those changes over time and do whatever you think is best. I will be thoroughly screening guests and not accepting local residents. I will be monitoring all activity in and out of the house and will escalate any situation if the exceeded guest count is passed. I have noise sensors to detect any excess noise outside and inside. I will make sure there are only a few cars in the driveway and no one disturbs your peace or goes onto your property. My thoughts and prayers go out to the neighborhood and to all of those affected by this situation. I'm happy to speak directly about any concerns people may have.

-Patrick

Tuesday, September 23 2025, 4:16 PM.

Michael

Hey patrick,
Sure,
my mom's is:
Linda Norman
normanlin57@gmail.com

Mine is
Michael Woodcock
mlw19mlw91@gmail.com

Tuesday, September 23 2025, 5:18 PM.

Michael

The news came out here the other day, didn't have any footage myself, but Steve gave them his and they interviewed me. Another detective came out too to photograph the bullet hole we found in the house but not much else. Evidently a bullet that's been fired, after it penetrates a wall like that, they said the chances of recovering a fingerprint are close to zilch.

Still haven't been able to inspect the outside, or remove the airconditioner from the wall to check behind it. My mom swears she heard more than 1 hit the house but we've only found one so far. Its surprising how small the holes are on the outside

Tuesday, September 23 2025, 5:21 PM.

Patrick AirBNB owner

I shared my ring footage with the detective showing every person who entered and left the property that day as well

Tuesday, September 23 2025, 5:24 PM.

Michael

man if you sent that to the news that might help catch them. The Airbnb shooting got the whole neighborhood talking. Some of my neighbors know people in another neighborhood across the river, and down town. All these Airbnb's the neighbors told me across town with partying problems have pool tables, big TVs, etc. and they evidently tracked them down to you. It might be wise to do some inner reflection on the message(s) you're sending out with the listings. Saying things like "parking for up to 6 cars" really doesn't belong in our neighborhood. Been here for 25 years and the Airbnb has been more problems in 8 months than all that time. My neighbor further down told everyone it also bothers them, the loud partying. Infact, when they saw the news they all came out and we were talking. It bothers a lot of people in the neighborhood but they were just like us, it was an inconvenicne but it happened rarely enough that it seemed easier to just deal with hit. But you've got the entire town now watching all your properties like a hawk and they're not going to hold off with the complaints anymore

Tuesday, September 23 2025, 8:02 PM.

Michael

Personally, I believe you should draw a map of where the cars can park in the driveway without blocking the easement. There's room for about 2, maybe 3 cars without them parking on your lawn or blocking the easement. Any more and they drive across our lawn or park in Steve's driveway, which is really inappropriate. I told him to call tow companies and find ones that will tow before guests park in his driveway so he'll know who to call

Tuesday, September 23 2025, 8:05 PM.

Patrick AirBNB owner

I completely understand where you're coming from and your concerns are valid. I have already changed my listing to advertise only two parking spaces and they will be on the left side of the driveway to not block the easement.

Tuesday, September 23 2025, 8:07 PM.

Patrick AirBNB owner

I've installed multiple security cameras to give me notifications every time a car parks in the driveway and if they are in the wrong spot or bring more guests then are on the reservation, I will cancel the reservation with 0 tolerance. I've clearly given my guests too much leeway and that's not fair to you or the neighbors and that's changing. My noise monitoring devices have also been installed and that's advertised on my listing to scare away any partiers

Tuesday, September 23 2025, 8:09 PM.

Patrick AirBNB owner

I have drawn a map and it's posted in my property but I will update it and send it out to guests before their arrival

Tuesday, September 23 2025, 8:09 PM.

Patrick AirBNB owner

I've got some work to do and I understand opinions will not change overnight but I will work every day to make these changes

Tuesday, September 23 2025, 8:11 PM.
