Council Member Drohan presentation –
The purpose of this project is to evaluate the various challenges related to infrastructure relative to potential future development within the Town of Thunderbolt. The primary goal is to be able to provide to the Town Council the pertinent data required to formulate policy that responsibly manages resources, infrastructure and development throughout the town respecting the rights of property owners and the general citizenry relative to fairness and quality of life as these might be impacted by future development.

Development Districts (DD) were assigned for the purpose of data collection as follows:

-River Dr DD

-Victory Drive DD

-Shell Rd Corridor DD

-Bonaventure Ave DD

-Downing Ave DD

-Individual Lots – Town Wide DD

-Blighted Properties and Vacant Properties – Town Wide DD

-Miscellaneous Properties - Town Wide DD

DDs will be assessed based on the following factors

Current Zoning Status

Development Status

- D = Developed

- U = Undeveloped
- PD = Partially Developed
- IP = Development in Process
- W = Wetlands
- Developed Water Service Needs
- Developed Sewer Service Needs
- W&S Infrastructure Needs
- Street/Transportation Infrastructure Improvement Needs

Scoring- An Example

A central issue in this research relates to sewer resources and how it can fairly be shared among the stakeholders, citizens and developers. I suggest that we use a fairly simple analytical model for this purpose.

Daily Limits
minus Buffer for Emergencies =
Rational Daily Sewer Resources

Rational Daily Sewer Resources
minus Current Average Sewer Utilization = Available Surplus Daily Sewer Resources

Each property is then scored based on its current zoning status for the number of housing units based an assumption of 2.75 occupants per unit.

These scored values will then be totaled across each District and then Town-wide to provide us with the Potential Sewer Resource Utilization.

Available Surplus Daily Sewer Resources minus

Potential Sewer Resource Utilization =

Projected Sewer Resource Availability.

Projected Sewer Resource Availability

provides us with an important but only one of the necessary measures Council will need to make create responsible, data driven policy relative to future development in Thunderbolt.

Data collection for the TDRUP has begun and is currently ongoing. Oscar, Deatre and Bob have all taken on responsibilities in that regard and the hope that this project can be completed in the next 30-45 days.

The results hopefully will provide the Council with solid information regarding the complex process of policy development relative to land development in a rapidly changing financial and utilization landscape.

Linda Buttersworth asked if we are using the comprehensive plan? Council Member Drohan explained they were utilizing the comprehensive plan.

Mayor Williams closed the public hearing at 6:31 pm

Mayor & Council,

Thunderbolt staff brings before you a recommendation to send two properties to the planning and zoning commission to review for redistricting from the Victory Drive District (VDD) to the River Drive District (RDD).

Current Boundaries of both districts see in Exhibit A & Exhibit B.

The two properties are referenced in the photos following…

Properties
2701 River Drive (30004 08013) – Exhibit C

2703 River Drive (30004 08012) – Exhibit D

These properties both face River Drive as seen in exhibits C & D.

If following the intent of the RDD planning these properties in the River Drive Corridor fall under separate zoning laws (pertaining to the VDD zoning) that would allow certain uses excluded elsewhere on River Drive such as liquor stores, gas station etc.… and have different size requirements etc.

Staff recommends the approval to move this to the planning and zoning committee to begin the process of public involvement etc.

Thereafter, the lease shall renew for 1-year terms at a rate to be negotiated by the parties at a consideration to be given to a rate in line with the adjusted property taxes.

(3). RENT: For the initial two months of this lease, Release Marine shall pay to Thunderbolt $__8,971_ upfront for rent and expenses ($7,171 for replacement of trees from clearing the area of specimen trees, $1000 for survey and legal fees, and $800 for two months' rent). After the first two months and during the first 4 years of this agreement , annual rent on the referenced right-of way shall be $4,800 due in full by the 15th of January of the year to be leased (Note- if unforeseen costs arise during the term of this agreement, such as an increase in insurance to the Town that necessitates an increase in rent, examples of increases will be shared with Release Marine, and any increase in the annual rent shall be agreed to by all parties prior to said increase being implemented and an MOU signed and attached to this the original agreement) . Any payment after the 15th of the month shall be delinquent and an automatic 10% delinquency charge shall be due. If Release Marine fails to pay rent by the last day of the month in which rent is due, Release Marine shall be considered in default and Thunderbolt shall thereby be entitled to evict Release Marine from the leased premises.

(4). USE: The premises hereby leased by Thunderbolt to Release Marine shall be used only for the purpose of parking for Release Marine adjacent business and for no other purpose or purposes. Any improvements such as paving, storm water drainage etc. shall be approved by Thunderbolt before construction so as not to interfere with any utility or other governmental structures on or under the property being leased. (6). INDEMNITY: Release Marine shall indemnify and save Thunderbolt harmless by reason of Release Marine's occupancy and use of the premises from and against any and all losses, costs, damages, expenses and liabilities in connection with claims for damages as a result of bodily, emotional or other injury or death of any person or property damage to any property except if any of the aforesaid is caused by the negligence of Thunderbolt. Release Marine shall not put any legal incumbrance on the property including but not limited to a lien from a lender and shall indemnify and save lessor harmless by reason of Release Marine's occupancy or use of the premises from and against the defense of any action or proceeding to discharge the premises from any charge, lien or encumbrance or in obtaining possession after default of Release Marine under any material, term or condition, of this agreement or its termination and against any action at law or in equity arising by reason of Release Marine's occupancy or use of the premises or performance or alteration, maintenance or improvement thereon or therein.

(8). RENEWAL: The parties agree that this lease shall automatically renew for annual terms (from January through December) on an agreed rental rate to be negotiated annually after the first full annual term as set forth in paragraph 3. Any increases in the rent shall be agreed upon at the time of renewal (save previously referenced rate increase due to unforeseen costs referenced in paragraph 3) provided, however, that Thunderbolt shall not be obligated to renew any such lease if there has been any default or material failure by Release Marine in the performance of the conditions of this lease. Notwithstanding any other provision of this agreement, Thunderbolt shall not be obligated to renew the term of this lease unless a majority of the Mayor & Council agree that the renewal of the terms of this lease are in the best interest of the Town of Thunderbolt.

Notwithstanding any other provision of this lease either party may terminate this lease or any renewal of the lease without cause upon giving the other party written notice 60 days in advance of the termination. The lease or any renewal shall automatically be considered terminated upon Release Marine filing bankruptcy under any corporate or business name that the lease operates its business upon the leased premises. Any previously prepaid rent for months after any such termination shall be refunded to Release Marine.

(9). Any improvements to referenced leased property can have no immediate cost to the Town of Thunderbolt. Such improvement costs shall be borne exclusively by Release Marine. # INTER OFFICE CORRESPONDENCE

TO: Town Administrator, Robert Milie

FROM: Chief Sean Clayton

DATE: October 4, 2022

SUBJECT: Monthly Report for September 2022

**POLICE DEPARTMENT**:
We had a slight reduction in crime for the month of September. However, Lt. Runyon is working three sexual assault cases. He's in the early stages on two of those cases so it's undetermined right now if those are going to be substantiated or not. These are not random acts so there's no threat to the public. The offender and victims in these cases know one another.

During Hurricane Ian's preparation, all officers were placed on an "on call" status and were available 24/7, one week prior to the storm arriving. Fortunately, because the track of the storm changed, we only had to activate one officer and that was on Thursday night, when we were expected to start getting tropical storm force winds.
